In Her Hands Demi Samande, 2024-12-10 Africa is seen as the next large growth economy, but with this potential comes concerns about exploitation from outside interests. Based on the real-world experiences of Demi Samande, award-winning entrepreneur, this book provides a toolkit for aspirational and savvy African entrepreneurs, as well as insights for responsible investors to seize the opportunity and to help transform the African economy for the benefit of Africa. As a practical guide, the book will inspire a new generation of entrepreneurs to tackle the challenges of doing business and the steps to creating sustainable, successful companies, both large and small. It features interviews with entrepreneurs who are already having success, as well as business executives, artists and creatives who are inspiring the transformation of African business from within and from overseas. Demi's own story, which she draws upon to illustrate how to build a successful business from scratch, starts in a London flat and traces the development of her company in Nigeria to becoming the premier manufacturer of luxury furniture in West Africa. It also tells her story from the perspective of a female entrepreneur. The book provides a hands-on roadmap for building and sustaining a business of any size and can be used on its own or in conjunction with training, either for entrepreneurs who are already in the process of building a business or for budding entrepreneurs in the classroom.

Examining the Role of Women Entrepreneurs in Emerging Economies Chitakunye, David, Takhar, Amandeep, 2018-05-11 Entrepreneurship has seen an influx of industry-leading women. With this shift, women are now impacting a mainly male-dominated field and face ongoing challenges within this domain. Examining the Role of Women Entrepreneurs in Emerging Economies is a critical scholarly resource that examines the influence and impact of women entrepreneurs in emerging economies. Featuring coverage on a broad range of topics such as women empowerment, financial management strategies, and discriminatory practices, this book is a vital resource for business managers, organizational leaders, professionals, and researchers seeking current research on women-related issues in different types of work communities and environments.

Family Businesses in Sub-Saharan Africa Moses Acquah, 2016-06-29 This book is the first of its kind to highlight the importance of family businesses to economic growth in sub-Saharan Africa. It examines the managerial, behavioral, and strategic issues facing these companies and offers conclusive statements about their performance and influence on the region. Family businesses have been found to outperform non-family businesses in advanced industrialized economies, yet no

such information exists on the importance of these companies which dominate the economic landscape of sub-Saharan Africa. Through empirical evidence and cross-country data, a team of expert contributors explore matters related to the management of family-owned businesses, such as how they evaluate employee productivity and performance, manage human resources, view governance practices and the role of women, and other sensitive issues. This is a seminal text for students and researchers in family business, entrepreneurship, strategic management, and family business owners looking to improve and advance their companies for the greater good of sub-Saharan Africa and the rest of the continent.

Entrepreneurship in Africa Ven Sriram, David Lingelbach, Tigineh Mersha, Franklyn Manu, 2020-11-16 It is now widely recognized that in regions like Africa, for economic and other reasons, the public sector has had to disengage and divest from many areas of the economy and allow private enterprise, especially scalable start-ups and new ventures, to enter and flourish if economic development and employment are to grow. There is, however, a training and education gap since entrepreneurship is rarely taught formally at African universities and, when it is, it is often approached from a Western perspective which may not be appropriate given that African environments are significantly different from most Western ones in terms of economic infrastructure and political considerations. This book allows readers to understand the African entrepreneurial context by guiding them through the principal stages in the life of a new venture, and offers approaches, both Western and indigenous, that can inform their entrepreneurial actions. It concludes by examining some specialized topics, including female, youth, and social entrepreneurship, as well as real estate and technology. Exercises throughout the book will enable readers to evaluate their motivations and preparedness for entrepreneurship and learn how to communicate a new venture's key features to potential stakeholders. By focusing on the distinctive features of entrepreneurship in the African context, and taking a conversational tone, this is an informative and practical text that will be useful for students of Global Entrepreneurship and Business as well as actual and prospective entrepreneurs in the private, non-profit, and public sectors.

In chapters like “Loneliness and Solitude,” “The Power of Planning,” and “The Curse of Comparison (and Why Social Media Sucks),” it picks up where the bibles for freelancers stop, offering practical, inspiring, and uniquely reassuring advice culled from a range of influences, from Aesop’s fables to medical journals, and explaining what helps us stay resilient, productive, and focused in a company of one.
