The Upstarts Brad Stone, 2017-01-31 A look deep inside the new Silicon Valley, from the New York Times bestselling author of *The Everything Store*. Ten years ago, the idea of getting into a stranger's car, or a walking into a stranger's home, would have seemed bizarre and dangerous, but today it's as common as ordering a book online. Uber and Airbnb have ushered in a new era: redefining neighborhoods, challenging the way governments regulate business, and changing the way we travel. In the spirit of iconic Silicon Valley renegades like Steve Jobs and Bill Gates, another generation of entrepreneurs is using technology to upend convention and disrupt entire industries. These are the upstarts, idiosyncratic founders with limitless drive and an abundance of self-confidence. Led by such visionaries as Travis Kalanick of Uber and Brian Chesky of Airbnb, they are rewriting the rules of business and often sidestepping serious ethical and legal obstacles in the process. *The Upstarts* is the definitive story of two new titans of business and a dawning age of tenacity, conflict and wealth. In Brad Stone's riveting account of the most radical companies of the new Silicon Valley, we discover how it all happened and what it took to change the world.

The Airbnb Story Leigh Gallagher, 2017-02-14 “An engrossing story of audacious entrepreneurship and big-industry disruption, [this] is a tale for our times.” —Charles Duhigg, New York Times–bestselling author of *The Power of Habit* An investigative look into a beloved, disruptive, notorious start-up, this is the remarkable behind-the-scenes story of the creation and growth of Airbnb, the online lodging platform that is now the largest provider of accommodations in the world. At first just the wacky idea of cofounders Brian Chesky, Joe Gebbia, and Nathan Blecharczyk, Airbnb has become indispensable to millions of hosts and travelers around the globe. Fortune editor Leigh Gallagher presents the first nuanced, in-depth look at the Airbnb phenomenon—the successes and controversies alike—and takes us behind the scenes as the company's young CEO steers into increasingly uncharted waters. “A fast-paced, fun dive into one of the seminal firms of our time; through the tale of Airbnb, Leigh Gallagher shows us how the sharing economy can be a force for emotional connection—as well as for social and business disruption.” —Rana Foroohar, Financial Times columnist and CNN global economic analyst

Leadership James H. Dulebohn, Brian Murray, Dianna L. Stone, 2022-01-01 As we enter the third decade of the twenty-first century, we are seeing a renaissance of context in influencing leadership, leader-follower relations, and leader effectiveness as well as a recognition of the tripartite nature of leadership. To fully understand and appreciate leadership, one must see

the multiple parts of it as well as the connections among them. Leadership is multi-dimensional; leadership depends on leaders, followers, and context. Leadership research in the past three decades has been dominated by interest in neo-charismatic leadership styles and a focus on leader-member exchange in leader-follower relationships. Recently other approaches to leadership, such as ethical and authentic leaders, have garnered greater attention in response to the moral and ethical challenges in the workplace. Additionally, established approaches to leadership emergence and development have been challenged by their relevance to diverse work forces and issues of inclusion. This twelve article volume includes an outstanding roster of established and emerging leadership authors who tackle questions of leadership at the intersections of leaders, followers, and context. The volume opens with two articles that set the stage for the current state of leadership research and paths for its future including a commentary by Edwin Locke and Gary Latham on current management research practices and an action-oriented review of leadership research from the start of the 21st century. The volume is organized around three themes: leadership and diversity, leader-follower relationships, and systems of leader, follower, and context. Articles in the volume advance diversity research with an integration of leadership and diversity theories that demonstrate the former's need for re-examination in light of the latter, a systematic development of inclusive leadership theory, and a close examination of immigrant ethnic identity. The authors of several articles expand our understanding of leader-follower relationships in the context of teams and alliances, the contextual boundaries of authentic leadership theory, and the authentic leader's potential impact on harassment in organizations. The volume culminates with three demonstrations of leadership as systems of leader-follower-context interaction, including a close examination of the toxic triangle's manifestation in university scandals, a micro-process model of power and leadership, and a configurational approach to studying leadership. The volume is designed primarily for scholars in the fields of human resource management, organizational behavior, and leadership. It also well serves the needs of instructors and students in master's and doctoral courses in leadership or organizational behavior. Each article is grounded in managerial context that will appeal to practitioners in the field.

We Are the Nerds Christine Lagorio-Chafkin, 2018-10-02 Named a Best Book of 2018 by Fast Company, this is a sharply written and brilliantly reported (Shelf Awareness) look inside Reddit, the wildly popular, often misunderstood website that has changed the culture of the Internet. Reddit hails itself as the front page of the Internet. It's the third most-visited website in the United States -- and yet, millions of Americans have no idea what it is. We Are the Nerds is an engrossing look deep inside this captivating, maddening enterprise, whose army of obsessed users have been credited with everything from solving cold case crimes and spurring tens of millions of dollars in charitable donations to seeding alt-right fury and landing Donald Trump in the White House. We Are the Nerds is a gripping start-up narrative: the story of how Reddit's founders, Steve

Huffman and Alexis Ohanian, rose up from their suburban childhoods to become millionaires and create an icon of the digital age -- before seeing the site engulfed in controversies and nearly losing control of it for good. Based on Christine Lagorio-Chafkin's exclusive access to founders Ohanian and Huffman, *We Are the Nerds* is also a compelling exploration of the way we all communicate today -- and how we got here. Reddit and its users have become a mirror of the Internet: it has dingy corners, shiny memes, malicious trolls, and a sometimes heart-melting ability to connect people across cultures, oceans, and ideological divides.

The Power of Difference Simon Fanshawe, 2021-12-03 SHORTLISTED: Business Book Awards 2022 - Diversity, Inclusion & Equality category Good intentions are not enough - real diversity is about change. This book explains why it's our differences and how we combine them that creates true diversity and generates innovation, fresh thinking and ultimately, success. With clarity and wit, *The Power of Difference* brings together the author's own experiences with the latest research to explain why inclusion is more than just being nice to people, why unconscious bias training isn't the fix we need and why listening to all individual voices, not just assuming that one viewpoint represents a group, is key. Offering insight, analysis and practical solutions, *The Power of Difference* is a must read for all managers, leaders and HR professionals as well as anyone looking to engage with the topic, who doesn't know where to start. Exploring how to confront bias, question assumptions and avoid generalizations, this book illustrates why diversity should be part of the overall business strategy, not separate from it. It shows how for innovation and diversity to flourish, we must create spaces that are safe for disagreement, not from disagreement. Written in an engaging yet practical style, this book courageously tackles some of the most significant issues at work today.

Extremely Online Taylor Lorenz, 2023-10-03 For over a decade, Taylor Lorenz has been the authority on Internet culture, documenting its far-reaching effects on all corners of our lives. Her reporting is serious yet entertaining and illuminates deep truths about ourselves and the lives we create online. In her debut book, *Extremely Online*, she reveals how online influence came to upend the world, demolishing traditional barriers and creating whole new sectors of the economy. Lorenz shows this phenomenon to be one of the most disruptive changes in modern capitalism. By tracing how the Internet has changed what we want and how we go about getting it, Lorenz unearths how social platforms' power users radically altered our expectations of content, connection, purchasing, and power. Lorenz documents how moms who started blogging were among the first to monetize their personal brands online, how bored teens who began posting selfie videos reinvented fame as we know it, and how young creators on TikTok are leveraging opportunities to opt out of the traditional career pipeline. It's the real social history of the Internet. Emerging seemingly out of nowhere, these shifts in how we use the Internet seem easy to dismiss as fads. However, these social and economic transformations have resulted in a digital dynamic so unappreciated and insurgent that it ultimately created new approaches to work, entertainment, fame, and ambition in the 21st century.

Extremely Online is the inside, untold story of what we have done to the Internet, and what it has done to us--

Without a Doubt Surbhi Sarna,2024-03-12 “An inspiring blueprint to overcome challenges—and thrive” (Arianna Huffington, Founder and CEO of Thrive Global), and turn doubt into rocket fuel to achieve your dreams, from entrepreneur, CEO, and healthcare investor Surbhi Sarna. The very qualities that make you an outlier are, in fact, your strengths. Or so Surbhi Sarna discovered after a teenage cancer scare inspired her to reimagine healthcare, founding a medical start-up to detect early ovarian cancer. In *Without a Doubt*, she shares how she proved the doubters wrong. As a young, brown woman without a medical or Ivy-league degree or Silicon Valley contacts—and who had felt different throughout her life—she was often overlooked and underrated. Undeterred, Sarna used the naysayers as ammunition to help her surpass expectations—and achieve her dreams. *Without a Doubt* is her “inspiring” (Tim Draper, venture capitalist and founder of Draper Associates) story of becoming a leader without an MBA, networking without a network, and raising funds when she didn’t know a single venture capitalist, teaching you how to do the same. Sarna led an all-star team to develop a life-saving medical device, sold her business for \$275 million, and became a partner at Y Combinator, one of the most successful venture firms in the world. Using her own experience, she shows you how to face setbacks, not let impossible standards get in the way, lead empathetically, empower others to think differently, and how to convince the right people to help you accomplish your goals. *Without a Doubt* reveals that your power lies in recognizing the qualities that make you different and leveraging them to pursue your dreams.

Laban - Aristotle Kiki Selioni,2020-12-20 The focus of this book rests on an investigation into the links between Laban and Aristotle and aims at proposing a new approach to movement training for the actor. In contrast to the standard Platonic reading, Laban’s development is best understood through the conceptual framework of Aristotle. This not only provides a more secure theoretical approach, but a practical one as well, which establishes the art of movement as a science. This investigation intends to establish Laban’s philosophical foundation upon a reading of Aristotle’s *Poetics*, and in particular, on the reading of the *Poetics* by contemporary Greek philosopher Stelios Ramfos in his two-volume book ΜΙΜΗΣΙΣ ΕΝΑΝΤΙΟΝ ΜΟΡΦΗΣ Ἐξήγησις εἰς τὸ Περὶ Ποιητικῆς τοῦ Ἀριστοτέλους (MIMESIS VERSUS FORM Exegesis about Aristotle’s *Poetics*) (1991-1992). What is significant about Stelios Ramfos’ exegesis is that he attempts an analysis and interpretation of the concepts of the *Poetics* in terms of theatre performance. It is this emphasis on performance that makes the task I have embarked upon possible. The discussion will serve as a critical framework that will propose a new way of applying Laban’s

movement concepts to the movement training for actors in practice. The research methodology is also practical. I will therefore also develop and present a performance that attempts to apply Laban's terms, as these are discussed, in relation to Aristotle, and in relation to the new methodology as well as a syllabus of practical classes addressing actor movement training in both kinaesthesia and characterization. The ultimate goal of the project is to contribute an approach that can inform the way Laban's concepts are taught and provide suggestions for structuring technical movement classes for actors.

Pattern Breakers Mike Maples Jr, Peter Ziebelman, 2024-07-09 A radical set of new ideas for how entrepreneurs, investors, and corporate leaders can use the pattern-breaking mindset to dominate the future The breakthrough concepts of Pattern Breakers come from the observations of Mike Maples Jr., a seasoned venture capitalist, who noticed something strange. Start-ups like Twitter, Twitch, and Lyft had achieved extraordinary success despite their disregard for "best

practices.” In contrast, other startups deemed highly promising often failed, even when they seemed to do everything right. Seeking answers, Maples and coauthor Peter Ziebelman set out to discover the hidden forces that drive extraordinary start-up success. Pattern-breaking success, they reveal, demands a different mindset and actions to harness developments others miss or that may, at first, seem crazy. *Pattern Breakers* is filled with firsthand storytelling about initial interactions with some of the most transformative start-ups of recent times. Maples and Ziebelman vividly illustrate an unexpected world where chaos is welcome, naysayers are a positive signal, movements galvanize believers—but one that ultimately change the future. They challenge us to rethink how to transcend the ordinary and achieve the extraordinary.

Good Luck Have Fun Roland Li,2017-09-05 Esports is one of the fastest growing—and most cutthroat—industries in the world. A confluence of technology, culture, and determination has made this possible. Players around the world compete for millions of dollars in prize money, and companies like Amazon, Coca Cola, and Intel have invested billions. Esports are now regularly played live on national TV. Hundreds of people have dedicated their lives to gaming, sacrificing their education, relationships, and even their bodies to compete, committing themselves with the same fervor of any professional athlete. In *Good Luck Have Fun*, author Roland Li talks to some of the biggest names in the business and explores the players, companies, and games that have made it to the new major leagues. Follow Alex Garfield as he builds Evil Geniuses, a modest gaming group in his college dorm, into a global, multimillion-dollar eSports empire. Learn how Brandon Beck and Marc Merrill made League of Legends the world’s most successful eSports league and most popular PC game, on track to make over \$1 billion a year. See how Twitch.tv pivoted from a video streaming novelty into a \$1 billion startup on the back of professional gamers. And dive into eSports’ dark side: drug abuse, labor troubles, and for each success story, hundreds of people who failed to make it big. With updates on recent developments, *Good Luck Have Fun* is the essential guide to the rise of an industry and culture that challenge what we know about sports, games, and competition.

The Minimalist Entrepreneur Sahil Lavingia,2021-10-26 “Pay attention.”—Jason Fried A revolutionary roadmap for building startups that go the distance Now more than ever, you don’t need a fancy office, Ivy League degree, or millions of dollars in venture capital to launch a business that matters for the communities you care most about. Software, the internet, and remote work have made it possible for entrepreneurs to start for free, make a customer of anyone, and grow a profitable, sustainable company from anywhere. Packed with hard-won, battle-tested lessons from Lavingia’s own journey of building Gumroad, a platform for creators to sell their work, *The Minimalist Entrepreneur* teaches founders how to:

- start then learn
- build a community, then solve a problem for them
- charge for something even before you’ve built anything
- avoid running

out of money and, more importantly, energy • run a tight ship amid the rise of the gig economy and remote work • own a business without it owning you back. The Minimalist Entrepreneur is the manifesto for a new generation of founders who would rather build great companies than big ones. This is essential knowledge for every founder aspiring to build a business worth building.
